You make amazing things happen at St. B

As Canadians, we are fortunate to have a universal health-care system. Government funding ensures that our essential health-care needs are met.

St. Boniface Hospital Foundation is proud to work with our community to power compassionate care and research beyond what public funding can support.

That's where volunteers and donors like you come in. At St. B, philanthropy is a bridge from better to best.

Community investment forges pathways to courageous discovery, vital capital expansions, equipment upgrades, and patient comforts where provincial funding is capped. You create conditions where the healing power of compassion can thrive.

The journey to best is not a straight path. We all face health inequities, ongoing global financial uncertainties, and a health-care system that has been stressed like never before.

These challenges are not insurmountable when our community comes together to solve them.

For more than 50 years, our donors have supported the greatest priorities of the Hospital to ensure its ability to provide compassionate care and lead innovative medical research.

Thank you for believing in the Hospital's vision of offering global-calibre medical expertise in a sanctuary of compassion, where today's discoveries are tomorrow's cures.

Imagine the amazing things we can do, together.
